## Gary Curran – Broker Associate

Gary has over 35 years of professional experience, including 10 years of owning and operating businesses. Growing up in a family restaurant business taught him the importance of going the extra mile to ensure client satisfaction and attention to operational details. Gary later used these skills to start and operate an electronics assembly business with international distribution, growing sales to \$4.4 million.

Gary brings a broad set of skills in sales, management, marketing, and financial analysis. He has extensive experience in diverse industries, including manufacturing, technology (hardware, software, and services), restaurants, O&G, mining, and distribution. He diligently brings buyers and sellers together, creatively working out the details for successful transactions.

Gary is licensed to sell businesses and real estate in the State of Colorado. He holds an MBA from Thunderbird, a B.S. in Finance from the University of Montana, PMD-Pro project management certification, and has been a Colorado resident for over 20 years.

Gary enjoys skiing, biking, and sports. He has had season football tickets to the Air Force Academy Falcons for five years. He is passionate about volunteering with numerous organizations, but is most fond of his work with Arapahoe and Jefferson County jails for the last eight years.

Please call Gary at 303.807.0807 or send him an email ([gary@fbb.com](mailto:gary@fbb.com)) with your questions about buying, selling, and valuing a business. Consultations are confidential and without obligation.
